Dear Chairman Powell,

Our teacher told us today about the plan to cut the eRate money for our school because Cleveland schools have already received eRate money. I just want to let you know that I don't think that is fair. If the funding from eRate is cut, Cleveland schools will not be able to afford to pay for us to be able to use the internet at school.

We are growing up in a world where it is important for us to be able to use the internet. We use it for research. We can do projects with other schools all around the world. We learn so much from it – things that textbooks cannot teach us. Most of our families do not have computers at home, so school is the only place where we can have these kinds of experiences.

Please rethink your ideas and make sure that our school district can get eRate again next year. Remember, we are the future generation! Please help us.

I love computers too.

please don't take the
Internet
away!

Sincerely yours,
Jasmine
